Others Pending

## Toy Moving Picture Machines

"THE STANDARD OF THE WORLD FOR BOYS AND GIRLS"

**Keystone Manufacturing Company**

288 A Street,

Boston, Massachusetts, U. S. A.

## KEYSTONE MOVIEGRAPH

THE QUALITY LINE SOLD BY THE BEST TRADE EVERY YEAR

### GENERAL INFORMATION

**WITHOUT** any elaboration of facts, we offer you the following information in connection with the **Keystone Moviegraph**.

The **Keystone Moviegraph** is patented under the following patent numbers: 55107 and 1345793. Other patents pending.

The **Keystone Moviegraph** is absolutely guaranteed to show clear and large pictures. It is more simple to operate and has less parts for a user to assemble than any other machine on the market.

The **Keystone Moviegraph** is equipped with **Non-Inflammable Film**.

The **Keystone Moviegraph** is manufactured for either standard gauge film or narrow gauge film.

The Standard or Theatre gauge is  $1\frac{3}{8}$  in. wide.

The Narrow gauge is  $1\frac{1}{8}$  in. wide. The reason we manufacture a machine to take narrow gauge film is that there is a demand for a machine with a sprocket barrel that will **not** fit the regular theatre film. We manufacture this machine in the following numbers: 147N, 154N, 261N, 193N, 198N, 572N, 575N, to conform with the specification of the Underwriters' Laboratories, Inc. (**The Keystone Moviegraph in these numbers are the only toy motion picture machines that are included in the list of inspected electrical appliances issued by UNDERWRITERS LABORATORIES**).

The film on all machines excepting the \$5.00 and \$7.00 models can be framed without opening the front door.

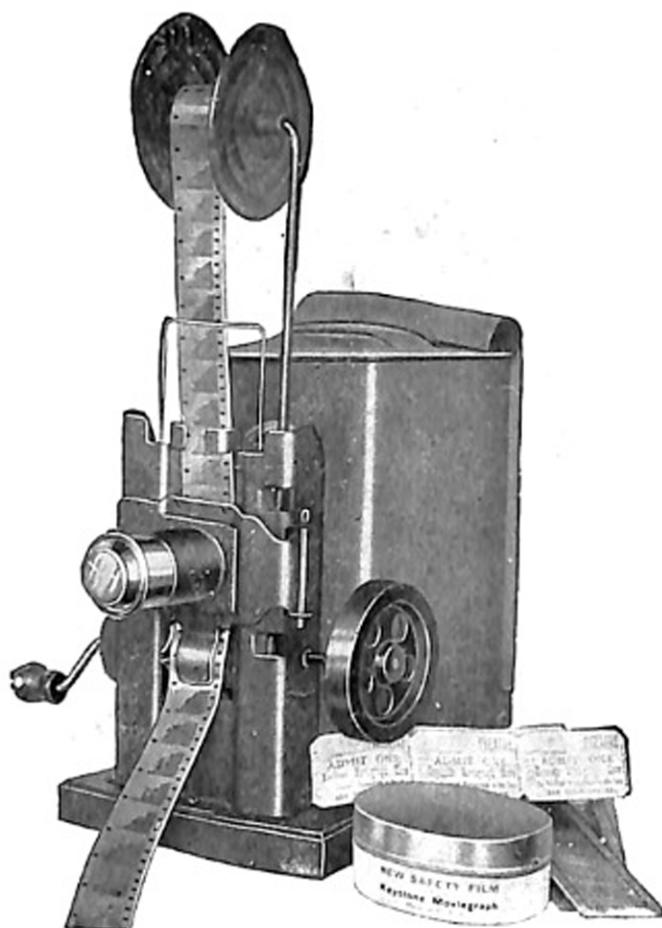

Any size Electric bulb up to 150 watt can be used on the \$25.00, \$20.00, \$15.00 to \$9.00 models. Theatre tickets, bill posters, operator's badge, arm bands, etc., are given with each machine. Additional outfits free to consumer on request.

Each machine is supplied with a film catalogue and a guarantee.

The **Keystone Moviegraph** is a nationally advertised product.

Extra parts can always be obtained at a nominal cost.

Batteries for the dry-cell and flashlight models can be purchased direct from the factory from time to time, therefore assuring fresh batteries for these machines.

This model carries the following numbers:

No. 572      Electric, equipped with 3 ft. of New Safety Film, Standard Gauge.  
No. 572N      Electric, equipped with 3 ft. of New Safety Film, Narrow Gauge.

**Size of Machine** (Exclusive of film spool illustrated) 5  $\frac{3}{4}$  in. x 8  $\frac{3}{4}$  in. x 10 in.

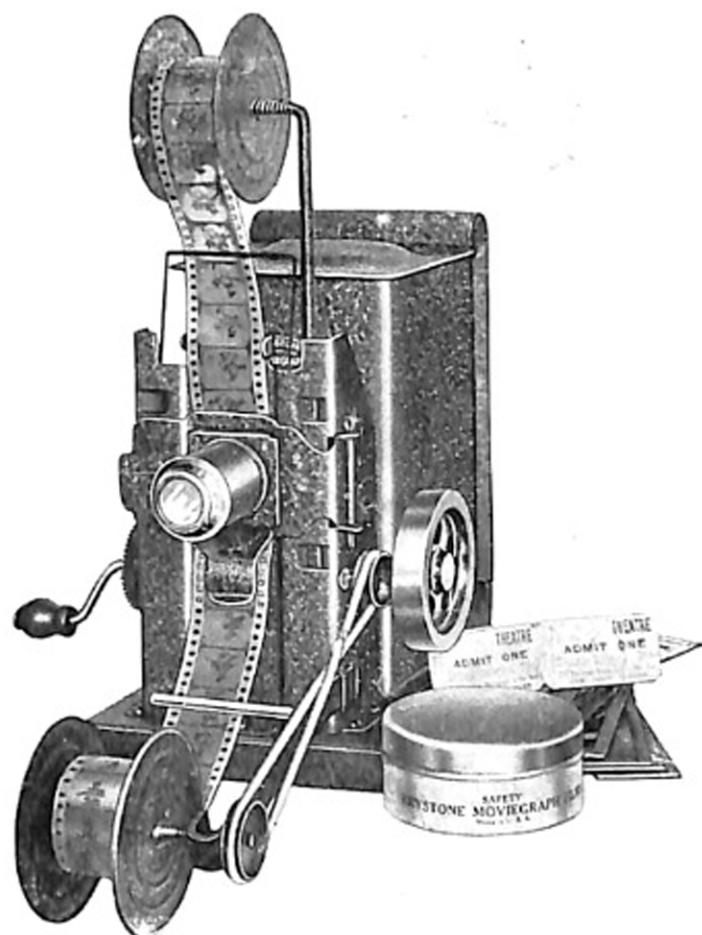

**Equipment** Stationary socket and six feet of cord with plug. One compartment slide, one U-Draw-Em slide, supply of tickets, bill posters, operator's badge and officers' and ticket takers' badges, ushers' arm bands and a sheet of simple instructions.

**Construction** Steel. Painted black of a high grade finish with a wooden base.

**Size of Picture** 36 in. x 48 in. The larger the bulb the further back from the wall the machine can be placed, resulting in a larger picture.

**Weight** Packed each in a strong box complete, 5 pounds.

**Retail Price, \$5.00**

This low priced rewind machine is one of our best sellers.

This model carries the following numbers:

No. 575 Electric, equipped with 6 ft. of New Safety Film, Standard Gauge.  
No. 575N Electric, equipped with 6 ft. of New Safety Film, Narrow Gauge.

The above models can also be had for Dry Cell Batteries. Be sure to specify the number and whether for Electric or Dry cell. Electric models furnished unless otherwise specified. Batteries not furnished with dry cell machines.

**Size of Machine** (Exclusive of film spool illustrated) 5 $\frac{3}{4}$  in. x 8 $\frac{3}{4}$  in. x 10 in.

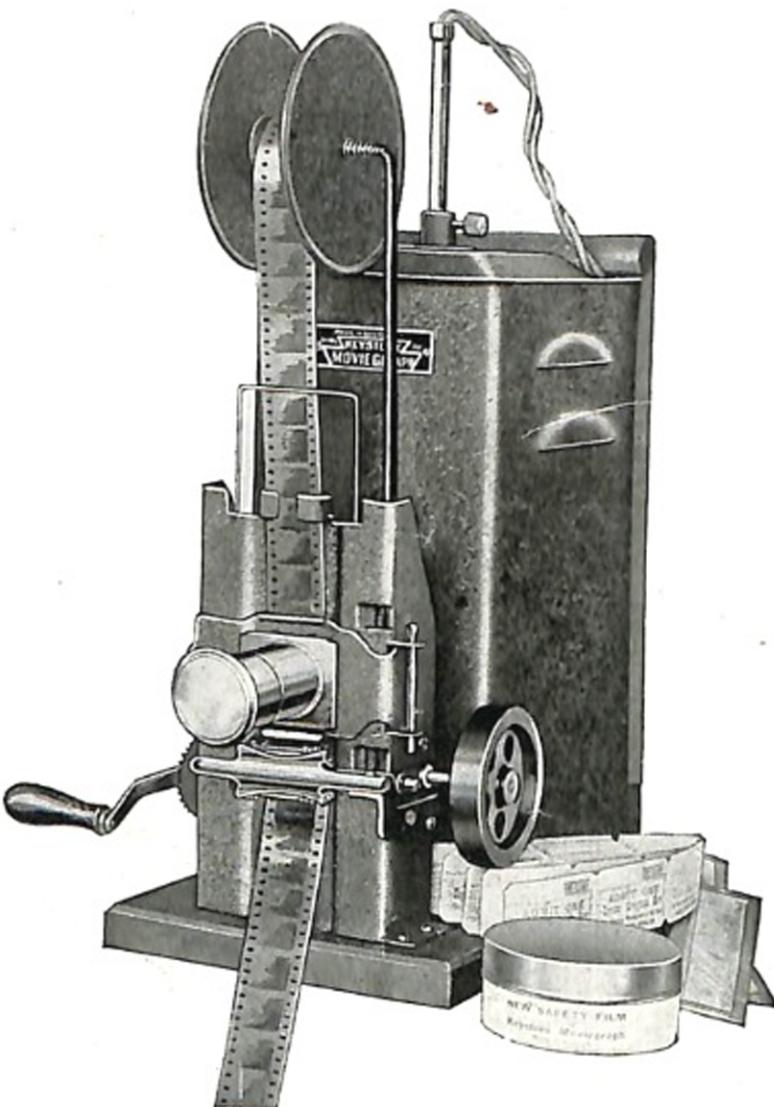

**Additional Equipment** Stationary socket and six feet of cord with plug. One Compartment Slide, one U-Draw-Em Slide, supply of tickets, bill posters, operator's badge and officers' and ticket takers' badges, ushers' arm bands and a sheet of simple instructions.

**Construction** Steel. Painted black of a high grade finish with a wooden base.

**Size of Picture** 36 inches x 48 inches. The larger the bulb the further back from the wall the machine can be placed, resulting in a larger picture.

**Weight** Packed each in a strong box complete, 6 pounds.

**Retail Price, \$7.00**

U. S. Patents

This model carries the following numbers:

No. 193 Electric, equipped with 10 ft. of Brand New Safety Film, Standard Gauge.

No. 193N Electric, equipped with 10 ft. of Brand New Safety Film, Narrow Gauge.

**Size of Machine** 6 $\frac{3}{4}$  in. x 12 $\frac{1}{2}$  in. x 13 in.

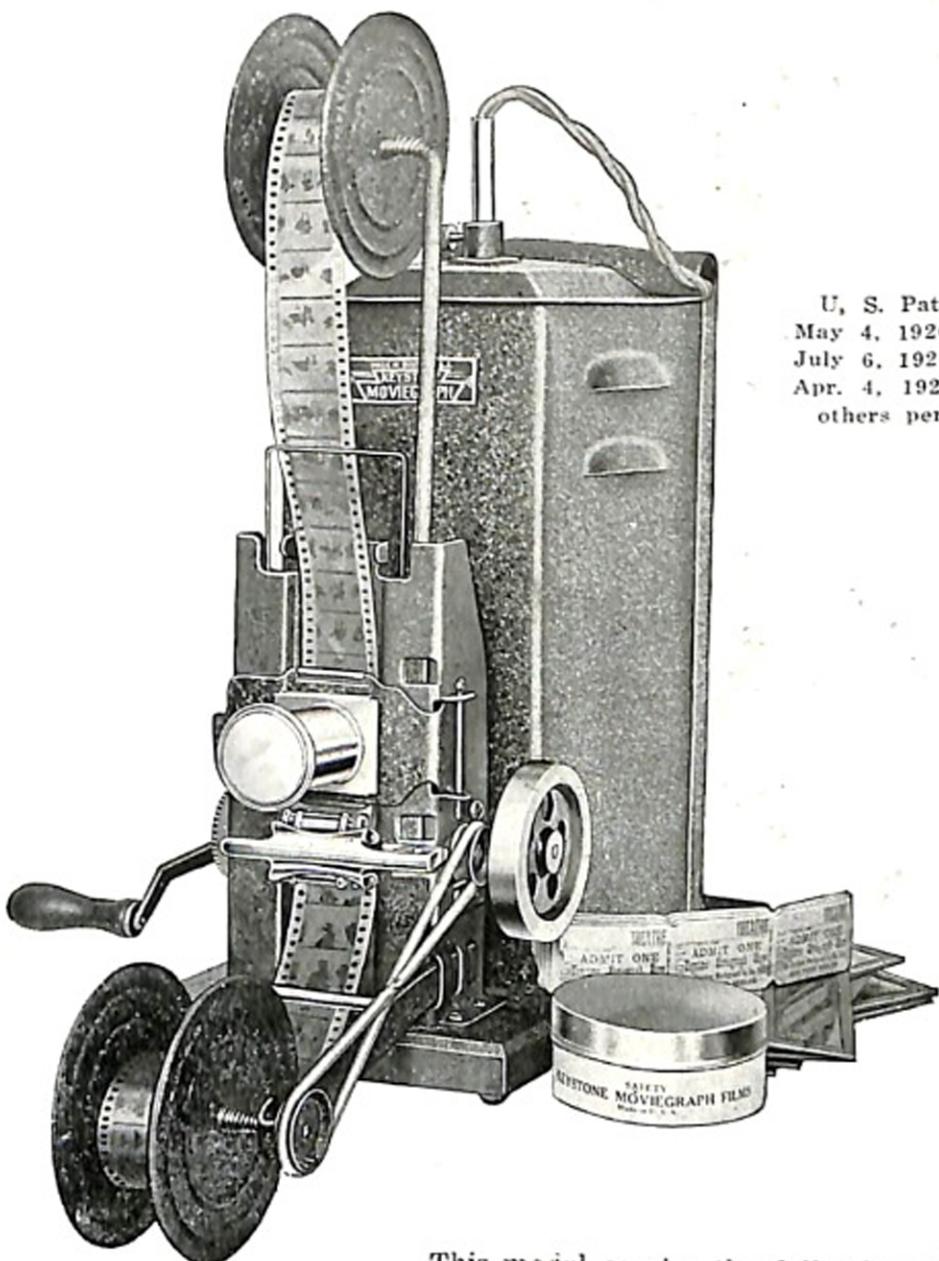

**Equipment** Adjuster for electric bulb, including six feet of cord, plug and socket, one compartment slide, one U-Draw-Em slide, generous supply of tickets, bill posters, officers' badges, operators' and ticket takers' badges, ushers' arm bands, and a sheet of simple instructions.

**Construction** Steel. Leather pattern, baked crystalized enamel finish. Nickel trimmings. Wooden base with rubber tabs on the bottom so that it will not scratch the furniture.

**Size of picture** 45 inches x 60 inches. Any ordinary Electric bulb can be used, the larger the bulb the further back from the wall the machine can be placed, resulting in a larger picture.

**Weight** Packed each in a strong box complete, 8 $\frac{1}{2}$  pounds.

**Retail Price, \$9.00**

This model carries the following numbers:

No. 261      Electric, equipped with 25 ft. New Safety Film, Standard Gauge.  
No. 261N      Electric, equipped with 25 ft. New Safety Film, Narrow Gauge.

This machine is a beauty, it will unwind and rewind up to 200 feet of film. The rewind attachments are easy to assemble. Adjustable to any size electric lamp.

**Size of Machine**   6  $\frac{3}{4}$  in. x 14  $\frac{3}{4}$  in. x 19 in.

**Equipment**   Extra large lens tube, with lens adjusting mechanism, and three powerful lenses, including condensing lens. Highly polished reflector. One Compartment Slide, U-Draw-Em Slide, 100 theatre tickets, generous supply of bill posters, officers' badges, also ticket takers' and operators' badges, ushers' arm bands and sheet of simple instructions.

**Construction**   Steel. Leather pattern, baked crystalized enamel finish. Nickel trimmings. Adjuster for lens. Wooden base with rubber tabs on bottom so that it will not scratch furniture. Has rewind pulleys. Polished fly wheel. Sprocket barrel with rollers so that film will not come off or tear.

**Size of Picture**   60 in. x 72 in. Any ordinary Electric bulb can be used, the larger the bulb the further back from the wall the machine can be placed, resulting in a larger picture.

**Weight**   Packed each in a strong box complete, 10  $\frac{1}{2}$  pounds.

**Retail Price, \$15.00**

THESE SLIDES FURNISHED WITH EACH MACHINE

Excepting machines retailing under \$5.00

**FILM COMPARTMENT SLIDE** Size  $1\frac{3}{8}$  in. x  $5\frac{7}{8}$  in.

Twenty-five film pictures furnished with extra slides. Film pictures cut from regular film can be inserted into the compartments of this metal slide.

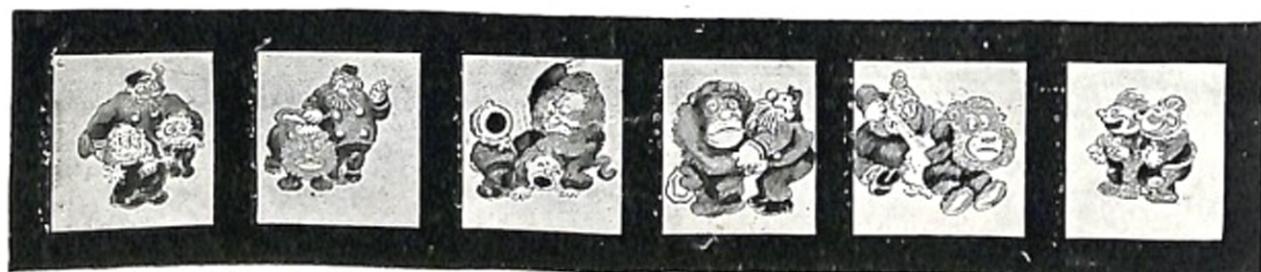

**PRICE 15c EACH**

**U-DRAW-EM SLIDES** Size  $1\frac{3}{8}$  in. x 6 in.

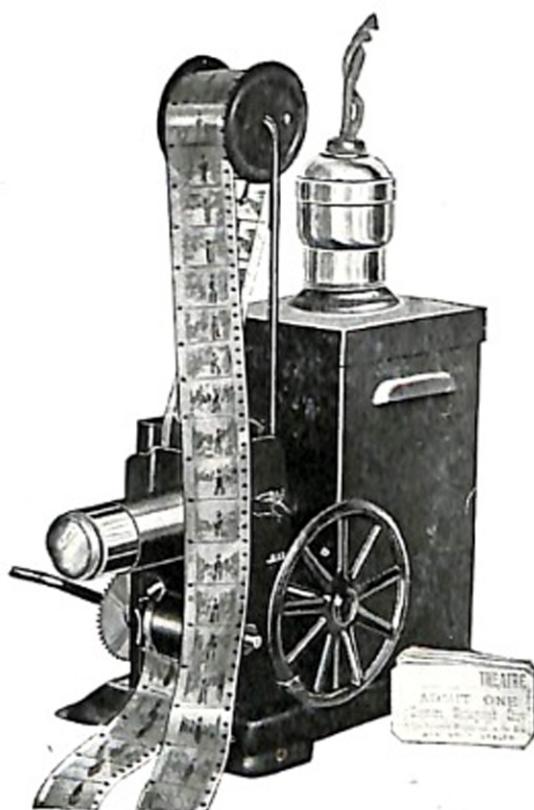

An ordinary or colored pencil will mark on these ground glass slides sayings or amusing drawings. An endless variety of fun can be had with this slide, since it is very easy to erase with a damp cloth.

**PRICE 10c EACH**

**COLORED SLIDES** Size  $1\frac{3}{8}$  in. x 5 in. (Not furnished with machine.)

We import our own colored slides and it is not quite practical for us to catalogue the subjects as they are liable to change from time to time. Colored slides are not furnished with the machine owing to the import situation. Importations of colored slides are received from time to time. **PRICE 10c EACH**

This model carries the following numbers:

No. 354W Electric, equipped with 2 ft. of New Safety Film, Standard Gauge.  
No. 353N Electric, equipped with 2 ft. of New Safety Film, Narrow Gauge.  
No. 352N Kerosene, equipped with 2 ft. of New Safety Film, Narrow Gauge.

The above models can be had for either Electric or for Oil Lamps. Be sure to specify the number and whether Electric or for oil. Electric models furnished unless otherwise specified.

**This model is especially good for premium, sales stimulating projects, trust schemes and other selling plans where a low price machine is necessary.**

**Size of Machine** (Exclusive of wire film holder) 4 in. x 7 1/4 in. x 7 1/2 in.

**Equipment** Adjustable lens, six feet of cord with electric socket and plug, generous supply of tickets, sheet of simple instructions.

**Construction** Steel. With red fly wheel. Top of machine comes off so that it is very easy to put the electric bulb into the fixture or the oil lamp on the base of the machine.

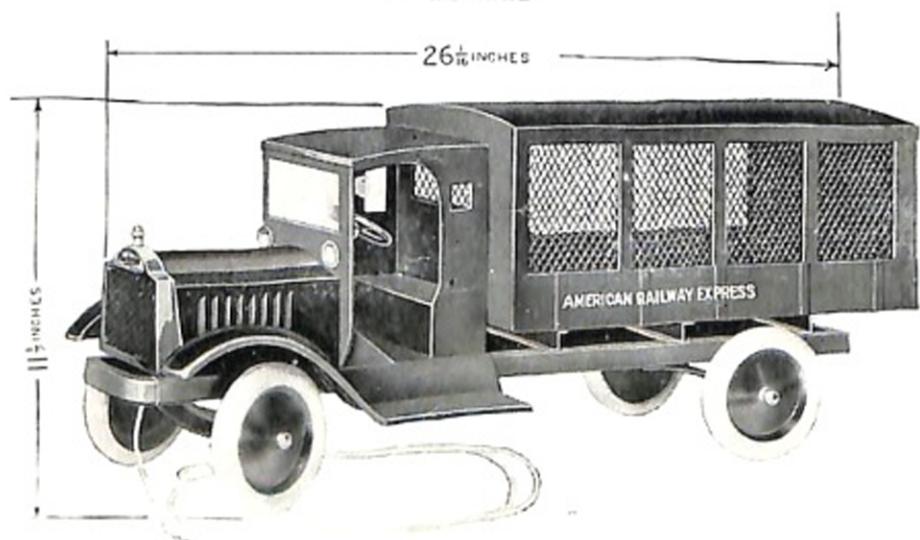

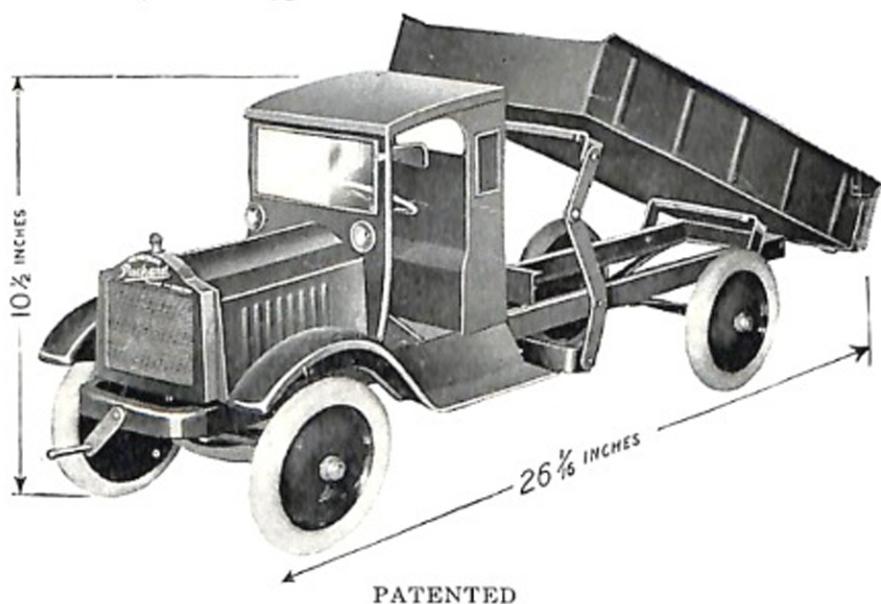

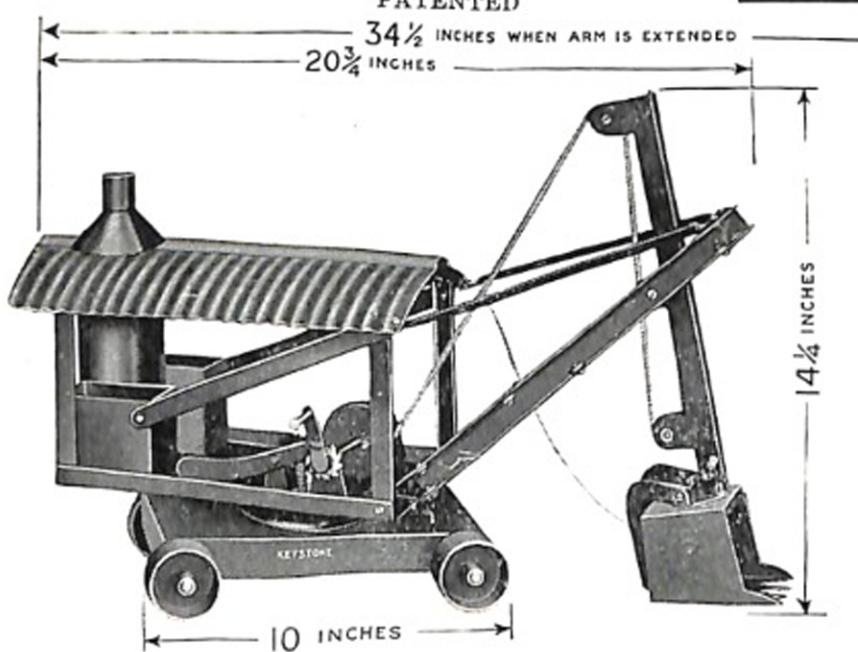

**Size of Picture** About 24 in. x 36 in. Depending on the size bulb used and the distance from the wall.

**Weight** Packed each in a strong box, 1 3/4 pounds.

**Retail Price—Oil Model, \$2.50      Electric Model, \$3.50**
