

MITHRIL MINIATURES
COLLECTORS CATALOGUE
AND PRICE GUIDE

2010

Introduction

In 1958 „Prince August“ was founded in Sweden by Jan Edman. The company quickly gained a reputation for the production of toy soldiers. But its real speciality were the molds for tin figures. Even today thousands of molds are produced and exported to 24 countries.

In 1976 they moved their production to Irland, near Cork. In 1987 Lars Edman, Jan Edman's son, founded Mithril Miniatures.

From the very beginning, Chris Tubb, one of the world's best figur designers, could be won over for the company. In the course of more than 20 years Chris created more than 700 characters from J.R.R. Tolkien's world—from the novels „Lord of the Rings“ and „The Hobbit“.

The outstanding characteristics of his figures are the scale of 32 mm and the grey coating. But what makes them unique are their unequaled realism and richness of details as well as their first-class production quality.

In addition the collector can rely on the exact reproduction of Tolkien's descriptions.

The figurines' popularity and the limited editions make them highly popular among collectors. Thus, some of them reach high prices. For example an M16, Female Ranger from 1988, was sold for 400 €, its original price in 1988 being approx. 0,99 €.

In recent years, Mithril has still been producing figurines whose price has quadrupled in a few years (MS437, Halbarad Northern Ranger from 2005).

A relatively large number of the figures produced so far is still available without any problems and can be ordered directly from Mithril Miniatures. They are marked in the catalogue with

Introduction

This catalogue's purpose is to procure the hardened collector with an overview of all the figures in a 54-mm and 32-mm scale produced by Mithril Miniatures. In addition to the officially sold figures, all other variations and prototypes have also been included.

Each figure is represented by a photo with its name or title as well as information on its age/production year, availability, production numbers, number of its parts and its value.

The prices given here should be regarded as a simple assessment of the figures' values for buying/selling or swapping them.

In the course of the many years of producing figures, Mithril Miniatures has issued various series which will be described in detail on the following pages. The catalogue is organised according to these series.

M series

The standard series. Mithril issues in certain intervals character figures or groups of figures on different topics (e.g. Minas Tirith). These figures are not limited in their numbers, but in their production time, since the moulds are worn off and therefore cannot be used indefinitely.

MW series

In 1994 Mithril produced two warbands („Army of Gondor“ and „Orcs of Mordor“). Because of licence problems their production was stopped prematurely. Of two further warbands („Dwarves of the Iron Hills“ and „Half Orcs of Isengard“) there exist only a few prototypes.

MB series

The Mithril Box sets contain figure groupes, bigger single figures or small dioramas. They are unlimited with the exception of MB418 und MB422.

MC series

The Mithril Classics series contains outstanding figures from the no longer produced M series which are offered in new editions unlimitedly.

MCD series

Like the MC series, but with two different figures per blister.

MS series

The Mithril special figures can only be acquired by members of the Mithril Fellowship Club with „Gold Status“ and only directly from Mithril Miniatures. Starting with MS437, the figures are strictly limited (225-250 figures).

Introduction

MV Series

The vignettes of Mithril show key scenes from the novels „Lord of the Rings“ and „The Hobbit“ as small dioramas with a lot of details. Production time and numbers are unlimited with the exception of MV419 und MV420.

MX Series

Mithril Miniatures offers the collectors the unique opportunity to have his very own figure produced which is designed in cooperation with Chris Tubb and then produced by Mithril. Each such figure gets its official number and is packed into Mithril blister. The customers decides about the numbers of figures produced. Apart from the prototypes the MX figures are the most exclusive figures produced by Mithril.

LR Series

The LR series consists of 40 important characters from „Lord of the Rings“ which were newly designed and sold in a limited edition of 2,500 pieces. All the figures come in a spezial box and are equipped with a numbered certificate and painting instructions.

LT Series

The newly launched LT series of 2002 was the attempt to introduce a new design with different ground bases into the market. The 32 mm scale remained unchanged, but the base coating was omitted and a new display was introduced. However, production of the new series was stopped in order to „resurrect“ the well-known M series.

LO Series

Since 2001 Mithril is also producing collectible figures from Tolkien's novels in the popular 54 mm scale. These figures, as well as those of the 32 mm scale, are all designed by Chris Tubb. Production time and numbers are unlimited.

Christmas

The 54 mm Aragorn figure, produced in 1988, was the first of the Christmas series. Designed mainly for promotion purposes and produced in batches of approx. 100 pieces, the first Christmas figures (1988 to 1993) are among the rarest collectible figures of Mithril. Since 2007 the Christmas figures are produced in the standard scale of 32 mm.

The Catalogue

The basis for the prices given in this catalogue is a database containing about 11,000 datasets of Mithril figures sold worldwide at ebay in the past nine years. The prices apply to complete figures with original coating, unpainted and without packaging up to M099. Starting with M100, the figures are in their original display packaging. For display packaging one can calculate a markup of 20 percent.

For painted or blank figures (without coating) one has to calculate a markdown of 25 percent. Exempt hereof are of course collector-painted figures of high quality. If some part(s) should be missing, e.g. swords, shields etc., the value of the figure is only a fraction of the catalogue value.

The following figures were mostly not coated at Mithril: M122, M195, M296, MW336, MW337, MW346, MB series, MV series, LR series, LT series. In these cases there is no markdown for a missing coating.

Availability (AV):

- AV = 1 common
- AV = 2 normally available
- AV = 3 rare
- AV = 4 very rare

The availability is not the only factor influencing the price; other factors are popularity, age, etc.

Legend

Einleitung

Im Jahre 1958 wurde Prince August in Schweden von Jan Edman gegründet. Die Firma machte sich schnell einen Namen für die Herstellung von Spielzeugsoldaten aus Zinn, besonders aber für die Herstellung von Gießformen für Zinnfiguren. Noch heute werden monatlich Tausende Formen produziert und in 24 Ländern vertrieben.

1976 wechselte die Firma nach Kilnamartyra in Irland in die Nähe von Cork. 1987 gründete Lars Edman, der Sohn von Jan Edman, die Firma Mithril Miniatures.

Schon von Anfang an konnte mit Chris Tubb einer der weltbesten Figurendesigner gewonnen werden, der im Laufe von über 20 Jahren mehr als 700 Charaktere aus der Welt von Professor J.R.R. Tolkiens Büchern „Herr der Ringe“ und „Der Hobbit“ entwarf.

Seine Figuren zeichnen sich nicht nur durch ihren 32-mm-Maßstab sowie durch die werkseitige graue Grundierung, sondern vor allen Dingen auch durch einen unübertroffenen Realismus und Detailreichtum sowie durch erstklassige Fertigungsqualität aus. Ebenso kann sich der Sammler darauf verlassen, dass beim Entwickeln von neuen Figuren die Beschreibungen aus Tolkiens Werken genau eingehalten werden.

Durch die hohe Beliebtheit der Figuren sowie durch die zeitliche Begrenzung der Produktion bzw. die strengen Limitierungen bei bestimmten Ausgaben sind Mithril Miniaturen in Sammlerkreisen sehr geschätzt und erzielen teilweise außergewöhnlich hohe Preise. So ist für eine M16 (Female Ranger von 1988) ein Preis von etwa 400 € anzusetzen. Der Neupreis lag 1988 bei 0,99 £. Und auch der Halbarad Northern Ranger von 2005 (MS437) hat bei einer Auflage von nur 250 Stück innerhalb weniger Jahre seinen Ausgabepreis als Sammlerwert vervierfacht. Ein relativ großer Teil der bisher produzierten Figuren ist jedoch auch heute noch problemlos direkt bei Mithril Miniatures erhältlich (im Katalog mit gekennzeichnet).

Einleitung

Dieser Katalog soll dem geneigten Sammler eine Übersicht über alle 54-mm- und 32-mm-Figuren verschaffen, die von Mithril Miniatures produziert wurden. Als Ergänzung zu den offiziell verkauften Figuren wurden auch alle Varianten und Prototypen mit aufgenommen.

Jede Figur wird mit einem Foto mit Namen oder Titel sowie Informationen zu Alter/Produktionsjahr, Verfügbarkeit, Produktionszahl, Anzahl der Teile und Preis dargestellt.

Die Preise sollten als Basis zum Kauf, Verkauf oder Tausch angesehen werden.

Im Verlauf der vielen Produktionsjahre hat Mithril Miniatures verschiedene Serien herausgebracht, die auf den folgenden Seiten im Detail beschrieben werden. Der Katalog ist entsprechend dieser Serien sortiert.

M-Reihe

Die Standard-Serie. Mithril hat in zeitlichen Abständen Charakterfiguren oder Figurenserien zu bestimmten Themen (z.B. Minas Tirith) herausgebracht. Diese Figuren sind nicht in ihrer Produktionszahl, jedoch in ihrer Produktionszeit limitiert, da die Gussformen nicht unbegrenzte Zeit genutzt werden können.

MW-Reihe

Mithril produzierte 1994 zwei Warbands („Army of Gondor“ und „Orcs of Mordor“). Wegen Lizenzproblemen wurde die Produktion vorzeitig gestoppt. Von zwei weiteren geplanten Warbands („Dwarves of the Iron Hills“ und „Half Orcs of Isengard“) existieren nur einige Prototypen.

MB-Reihe

Die Mithril-Box-Reihe enthält Figurengruppen, größere Einzelfiguren oder kleine Dioramen. Bis auf MB418 und MB422 sind die Boxen nicht limitiert.

MC-Reihe

Die Mithril-Classic-Reihe beinhaltet Figuren aus nicht mehr produzierten M-Serien, die ohne Limitierung als Neuauflage hergestellt werden.

MCD-Reihe

Wie die MC-Reihe, jedoch mit zwei Figuren je Blister.

MS-Reihe

Die Mithril-Special-Figuren können nur von Mitgliedern des „Mithril-Fellowship-Clubs“ mit „Gold-Status“ bestellt werden und sind nur direkt über Mithril zu beziehen.

Ab MS437 sind die Figuren streng limitiert (150-250 Figuren).

Einleitung

MV Reihe

Die Vignetten von Mithril stellen mit viel Liebe zum Detail gemachte Schlüsselszenen aus den Büchern „Der Herr der Ringe“ und „Der Hobbit“ in Form von kleinen Dioramen dar. Die Vignetten werden zeitlich unbegrenzt und unlimitiert (Ausnahme MV419 und MV420) angeboten.

MX Reihe

Mithril Miniatures gibt dem Sammler die wohl einmalige Möglichkeit, seine eigene Figur herstellen zu lassen. Mit Unterstützung von Chris Tubb wird die Figur entworfen und von Mithril produziert, mit einer offiziellen Nummerierung versehen und in Mithril-Blister verpackt. Die Auflage richtet sich nach den Wünschen des Auftraggebers. Die MX-Figuren stellen - abgesehen von Prototypen - die wohl exklusivsten Figuren von Mithril dar.

LR Reihe

Mit der LR-Reihe wurden 40 wichtige Charaktere aus „Herr der Ringe“ neu entworfen und als limitierte Auflage (2.500 Stück) angeboten. Alle Figuren verfügen über ein nummeriertes Zertifikat sowie eine Bemalanleitung, verpackt in einer speziellen Schachtel für die LR-Reihe.

LT Reihe

Im Jahre 2002 wurde mit der neu eingeführten LT-Reihe versucht, ein neues Design mit anderen Bodenplatten einzuführen. Der 32-mm-Maßstab wurde beibehalten, die Grundierung wurde jedoch weggelassen und ein neues Display eingeführt. Die neue Reihe wurde dann aber auf vielfachen Wunsch der Sammler zugunsten einer Neubelebung der traditionellen M-Reihe beendet.

LO Reihe

Seit dem Jahr 2001 stellt Mithril auch in dem beliebten 54-mm-Maßstab Sammlerfiguren aus den Büchern von Tolkien her. Ebenso wie im 32-mm-Maßstab werden auch die 54-mm-Figuren von Chris Tubb entworfen. Sie werden zeitlich unbegrenzt und unlimitiert angeboten.

Christmas

Mit einer 54-mm-Figur von Aragorn hat Mithril 1988 die erste Weihnachtsfigur produziert. Hauptsächlich als Werbefiguren gedacht, stellen die frühen Weihnachtsfiguren (1988 bis 1993) mit einer Auflage von etwa 100 Stück die seltensten Sammlerstücke von Mithril dar. Seit 2007 werden die Weihnachtsfiguren im üblichen 32-mm-Format hergestellt.

Der Katalog

Als Basis für die Wertangaben in diesem Katalog dient eine Datenbank mit etwa 11.000 Datensätzen von bei Ebay weltweit verkauften Mithril Figuren in den letzten 9 Jahren.

Die Preise gelten für vollständige Figuren mit der originalen Grundierung, unbemalt und unverpackt bis M099, ab M100 original verpackt im Display. Bei Displayverpackung bis M99 kann ein Aufschlag von 20 Prozent eingerechnet werden.

Bei bemalten oder blanken Figuren (ohne Grundierung) muss mit einem Abschlag von 25 Prozent gerechnet werden. Hiervon ausgenommen sind natürlich Sammlerbemalungen von sehr guter Qualität.

Bei fehlenden Teilen wie Schwertern, Schilden usw. besitzt die Figur nur einen Bruchteil des Wertes.

Folgende Figuren haben werkseitig (fast) immer keine Grundierung erhalten: M122, M195, M296, MW336, MW337, MW346, MB-Serie, MV-Serie, LR-Serie, LT-Serie. Hier gilt also kein Preisabschlag für eine fehlende Grundierung.

Bei der Verfügbarkeit (AV) gilt:

AV = 1 häufig

AV = 2 normal verfügbar

AV = 3 selten

AV = 4 sehr selten

Die Verfügbarkeit steht nicht immer in Relation zum Wert, da für die Preisbildung auch andere Faktoren wie Beliebtheit, Alter usw. eine Rolle spielen.

Introduction

En 1958 „Prince August“ fut fondée en Suède par Jan Edman. L'entreprise s'est fait connaître par la production de soldats en miniature et après surtout par la production de moules pour figurines d'étain. Même aujourd'hui ils produisent des milliers de moules qui sont vendues en 24 pays.

En 1976 l'entreprise transféra son siège social à Kilnamartyra près de Cork en Irlande. En 1987 Lars Edman, le fils de Jan Edman, y fonda „Mithril Miniatures“.

Dès le début on a pu gagner Chris Tubb, un des meilleurs designers de figurines à l'échelle mondiale. Au cours de plus de 20 ans, Chris a désigné plus de 700 caractères du monde des livres „Le seigneur des anneaux“ et „Bilbo le Hobbit“ écrit par le Professeur J.R.R. Tolkien.

Ses figurines ne sont pas seulement caractérisées par l'échelle de 32 mm et leur couche de fond grise sinon surtout par leur représentation réaliste et leur richesse en détails inégalables aussi comme la haute qualité de production.

De même, le collectionneur peut être sûr que les descriptions dans les ouvrages de Tolkien sont observées scrupuleusement pendant le développement des nouvelles figurines.

Les figurines Mithril sont appréciées parmi les collectionneurs pour être très recherchées et aussi pour être produites dans une période brève de temps et aux nombres limités pour certaines éditions. Ainsi est-il possible d'obtenir parfois de très hauts prix.

Par exemple pour une M16 (Female Ranger de 1988) on peut fixer un prix d'environ 400 €. Le prix original fut de 0,99 £ en 1988. Et le prix des collectionneurs d'une MS437 Halbarad Northern Ranger de 2005 de laquelle furent produites 250 figurines s'est quadruplé en seulement quelques années.

Mais un contingent assez grand des figurines produites jusqu'à maintenant peut toujours être acquis directement chez Mithril - marquées dans le catalogue par

Introduction

Ce catalogue donne au collectionneur une vue d'ensemble sur toutes les figures de 54 mm et de 32 mm produites par Mithril Miniatures, y compris toutes les prototypes et variantes comme complément à toutes les figures vendues à titre officiel.

Chaque figure est accompagnée d'une photo avec son nom ou titre, en plus avec les informations sur son âge, l'année de production, sa disponibilité, le nombre des pièces produites, le nombre de ses éléments et son prix.

Au cours des années de production, Mithril Miniatures a sorti différentes séries qui sont décrites en détail dans les pages suivantes. Le catalogue est organisé selon ces séries.

Série M

La série „standard“. Mithril a sorti au marché dans certains intervalles figures de certains caractères ou séries de figures sur certains thèmes (par exemple Minas Thirith). Le nombre des figures produites est déterminé par le fait que les moules ne peuvent être utilisées qu'un certain temps.

Série MW

Mithril produit en 1994 deux Warbands („Army of Gondor“ et „Orcs of Mordor“). À cause de problèmes avec les licences la production fut stoppée avant l'heure. Des deux warbands additionnels („Dwarves of the Iron Hills“ et „Half Orcs of Isengard“) il y a seulement quelques prototypes.

Série MB

La série de Mithril „en boîtes“ (Mithril box) comprend des groupes de figures, des figures individuelles plus grandes ou des petites dioramas. Apart MB418 et MB422, les boîtes ne sont pas limitées.

Série MC

La série classique de Mithril comprend figures des séries M qui ne furent plus produites et lesquelles on a sorti de nouveau sans limitation.

Série MCD

Comme la série MC, mais avec deux figures par blister.

Série MS

Les figures de la série spéciale de Mithril peuvent être acquises seulement des membres du „Mithril-Fellowship Club“ avec le status d'or directement chez Mithril. La première figure sortie étant MS437, le nombre des figures sorties est strictement limité à 150-250 pièces.

Introduction

Serie MV

Les vignettes de Mithril représentent des scènes clefs des romans „Le seigneur des anneaux“ et „Bilbo, le Hobbit“ en forme de petites dioramas, faites avec beaucoup de soin aux détails. Les vignettes sont offertes illimitément (sauf MV419 et MV420).

Serie MX

Mithril Miniatures offrent aux collectionneurs la possibilité unique de se laisser fabriquer une figure propre selon leurs idées. Les figures sont designées avec l'aide de Chris Tubb et produites par Mithril, qui leurs donnent une numérotation officielle et les emballent dans leurs blisters. Le nombre des pièces produites depend du client. Les figures MX sont - à part les prototypes - les plus exclusives figures de Mithril.

Serie LR

La serie LR contient 40 importants caractères du „Seigneur des anneaux“, qui ont été désignés nouvellement comme édition limitée (2.500 pièces). Toutes les figures viennent avec un certificat numéroté ainsi qu'une instruction de peinture et sont emballées dans une boîte spéciale pour la serie LR.

Serie LT

En 2002 on a essayé un nouveau dessin avec d'autres bases. L'échelle de 32 mm a été maintenue, mais pas la couche de fond. En plus on a designé un nouveau display. Mais la nouvelle serie a disparue après que beaucoup de collectionneurs avaient désiré le relancement de la serie M traditionnelle.

Serie LO

Depuis 2001 Mithril produit aussi à l'échelle recherchée de 54 mm des figures pour collectionneurs d'après les livres de Tolkien. Ainsi que les figures à l'échelle de 32 mm, les figures de 54 mm ont été désignées aussi par Chris Tubb. Elles sont produites sans limite de temps ni de quantité.

Noël

Avec la figure de 54 mm d'Aragorn Mithril a produit en 1988 la première figure de Noël. Conçues principalement comme figures de publicité, les premières figures de Noël (1988 –1993) avec une édition d'environ 100 pièces font partie des plus rares figures pour collectionneurs de Mithril. Depuis 2007 les figures de Noël sont produites à l'échelle normale de 32 mm.

Le catalogue

La base des prix dans ce catalogue est une base de données avec approx. 11.000 dates des figures Mithril vendues dans ebay dans le monde entier pendant les derniers 9 ans.

Les prix sont valables pour les figures complètes avec la couche de fond originale, sans peinture et sans emballage jusqu'à M099 et à partir de M100 dans leurs displays originaux.

On peut calculer un supplément de 20 % pour les figures jusqu'à M99 avec display. Pour les figures peintes ou sans couche de fond il faut calculer un abaissement de 25 %. Y exclues sont bien sûr les figures peintes par collecteurs de très bonne qualité.

Au cas où une ou plusieurs pièces, p.e. épées, boucliers, manquent, les figures ont seulement une fraction de leur valeur originale.

Les suivantes figures n'ont pas reçu presque jamais une couche de fond chez Mithril: M122, M195, M296, MW336, MW337, MW346, série MB, série MV, série LR, série LT. Pour celles-ci il ne faut donc pas calculer un abaissement de prix à cause d'un manque de couche de fond.

Differents degrés de disponibilités (AV):

AV = 1 frequent

AV = 2 disponibilité normale

AV = 3 rare

AV = 4 très rare

La disponibilité n'est pas toujours reliée au prix, parce que d'autres facteurs comme la popularité, l'âge etc. sont aussi importants pour la formation des prix.

Introducción

En 1958 „Prince August“ fue fundada en Suecia por Jan Edman. La empresa fue conocida rápidamente en el ámbito de los soldaditos de juguete. Pero lo que les hizo realmente famosos fue la producción de moldes para las figuritas de plomo. Aún hoy en día producen mensualmente miles de figuritas que son exportadas a 24 países.

En 1976 la empresa fue transladada a Kilnamartyra en Irlandia, cerca de Cork. En 1987 Lars Edman, el hijo de Jan Edman, fundó la empresa „Mithril Miniatures“.

Desde el principio Chris Tubb, uno de los mejores diseñadores de figuritas de plomo del mundo, trabajó para Mithril. En el transcurso de más de 20 años, Chris diseñó más de 700 personajes del mundo de las novelas „El Señor de los Anillos“ y „El Hobbit“ de J.R.R. Tolkien.

Las características sobresalientes de sus figuritas son su escala de 32 mm y su capa básica gris. Pero lo que les hace únicas es su realismo y su representación detallada inegalables así como su calidad de producción superior.

Además, los coleccionistas pueden ser seguros que las descripciones dadas en las obras de Tolkien son seguidas al pie de la letra durante el diseño de nuevas figuritas.

La popularidad de las figuritas y sus ediciones limitadas las hacen muy demandadas por los coleccionistas y algunas consiguen altos precios en las subastas, como por ejemplo la M16, el Female Ranger de 1988, que alcanza unos 400 €. Su precio de primera venta en 1988 fue de 0,99 €.

Aún hoy en día Mithril está produciendo figuritas cuyo precio de primera venta se ha cuadruplicado en pocos años (como la MS437, el Halbarad Northern Ranger de 2005).

Una gran parte de las figuritas producidas actualmente pueden ser adquiridas directamente de Mithril Miniatures sin problemas—marcadas en el catálogo por

Introducción

Este catálogo proporciona al coleccionista una vista de conjunto sobre todas las figuras de 54 y de 32 mm que fueron producidas por Mithril Miniatures. Aquí están incluidas todos los prototipos o las variantes jamás hechas, como suplemento a las figuras vendidas oficialmente.

Cada figura está representada por una foto con su nombre o título así como informaciones sobre su edad, el año de su producción, la disponibilidad, el número de unidades producidas, el número de sus componentes y su precio.

Los precios pueden ser considerados como base para la compra, venta o el cambio de figuras.

En el transcurso de su larga historia de producción Mithril Miniatures ha vendido diferentes series descritas en detalle en las siguientes páginas. El catálogo es ordenado según estas series.

Serie M

La serie estándar. En ciertos intervalos Mithril produjo figuras de ciertos personajes o series de figuras sobre ciertos temas (por ejemplo Minas Tirith).

Por el hecho de que los moldes no pueden ser utilizados de modo ilimitado, existe también una limitación por el tiempo de producción, aunque no haya limitación del número de piezas producidas.

Serie MW

Mithril produjo en 1994 dos „warbands“ („Army of Gondor“ y „Orcs of Mordor“). Por problemas de licencia su producción fue detenida. De otros dos „warbands“ („Dwarves of the Iron Hills“ y „Half Orcs of Isengard“) sólo existen algunos prototipos.

Serie MB

La serie en cajas de Mithril incluye grupos de figuras, figuras sueltas más grandes o dioramas pequeños. Con la excepción de MB418 y MB422 las cajas son limitadas.

Serie MC

La serie clásica de Mithril incluye figuras reeditadas sin limitación de series que ya no son producidas.

Serie MCD

Como la serie MC, pero con dos figuras por blister.

Serie MS

La serie especial de Mithril sólo puede ser adquirida por los miembros del „Mithril–Fellowship–Club“ con estatus de oro directamente de Mithril.

Empezando por MS437, su producción es limitada a 150-250 figuras.

Introducción

Serie MV

Las viñetas de Mithril representan escenas clave de los libros «El señor de los anillos» y «El Hobbit» hechas con gran atención a los detalles y presentadas como pequeñas dioramas. Las viñetas son producidas sin limitación temporal o cuantitativa (excepto MV419 und MV420)

Serie MX

Mithril Miniatures le da al coleccionista la oportunidad única de hacer producir su propia figura. La figura es diseñada con la ayuda de Chris Tubb y es producida por Mithril, después es provista con un número oficial y empaquetada en blisters Mithril. El cliente puede determinar el número de piezas producidas. Las figuras MX representan—excepto los prototipos— las figuras más exclusivas de Mithril.

Serie LR

Con la serie LR fueron rediseñados 40 personajes importantes del «Señor de los anillos» y después ofrecidos en edición limitada (2500 piezas). Todas las figuras están provistas con un certificado numerado y una instrucción de pintura y están empaquetadas en una caja especial para esta serie.

Serie LT

En el año 2002 Mithril intentó de introducir un nuevo diseño con otras placas de base en la nueva serie LT. Mantuvieron la escala de 32 mm, pero se abstuvieron de la capa de fondo. Además introdujeron un nuevo display. Pero según el deseo de muchos clientes la nueva serie fue suprimida en favor de una nueva edición de la serie tradicional M.

Serie LO

Desde el año 2001 Mithril también produce figuras para coleccionistas de los libros de Tolkien en la escala muy popular de 54 mm. Como las figuras de 32 mm, las de 54 mm también son diseñadas por Chris Tubb. Son ofrecidas sin limitación temporal o cuantitativa.

Christmas

La figura de 54 mm de Aragorn que Mithril produjo en 1988 fue la primera figura para Navidad. Pensadas sobre todo como figuras para la publicidad, las primeras figuras navideñas (1988–1993) con una edición de aproximadamente 100 piezas representan las más raras figuras para coleccionistas de Mithril. Desde 2007 estas figuras son producidas en la escala usual de 32 mm.

El catálogo

La base de las valores dadas en este catálogo es un banco de datos de aproximadamente 11.000 precios compilados de ebay, abarcando las figuras Mithril vendidas en todo el mundo en los últimos nueve años.

Los precios son aplicables a figuras completas con la capa de base original, sin pintura y sin envase hasta M099 y a partir de M100 en el envase original en display.

Con display hasta M99 se puede calcular un recargo de 20 %.

Para las figuras pintadas o sin capa de fondo hay que calcular una reducción de 25 %, exempto las figuras pintadas de muy buena calidad.

La falta de piezas como espadas o escudos reduce el precio considerablemente.

Las siguientes figuras fueron producidas (casi siempre) sin capa de fondo:

M122, M195, M296, MW336, MW337, MW346, serie MB, serie MV, serie LR, serie LT. Para estas figuras no hay que calcular una reducción por falta de capa de fondo.

La disponibilidad (AV) es la siguiente:

AV = 1 frecuente

AV = 2 normal

AV = 3 rara

AV = 4 muy rara

La disponibilidad no ésta siempre relacionada al valor de la figura, ya que otros factores como la popularidad, la edad etc. también influyen el precio.
