Certificate

1st February 1934
I hereby Certify that I have examined the clockwork toy "MAGIC MIDGET" manufactured by Lines Brothers Ltd., and that I consider it to be a true and faithful scale model of the famous M.G. MAGIC MIDGET on which I have broken so many baby car records and which was the first baby car to attain a speed of 100 miles a minute.

(Signed) George Eyston

This is a real scale model of Captain Eyston's record-breaking M.G. Magic Midget—the first Baby car to do over 120 m.p.h.: Eyston, himself, has certified it to be a perfect replica. It looks a speedy car—and it is. Try the Magic Midget out against your friends' racers. The Magic Midget has an all-steel body with a powerful clockwork motor, rubber wheels with polished aluminium disc. Length 16 in. Price 10/6

MAGIC MIDGET

Made by the makers of TRI-ANG TOYS under the Supervision of Capt. G. Eyston

See the Magic Midget at your toyshop.
