THE PERFECT TOY CINEMA

MAINS MODEL complete with Resistance

MODEL C.4

27'6

RETAIL

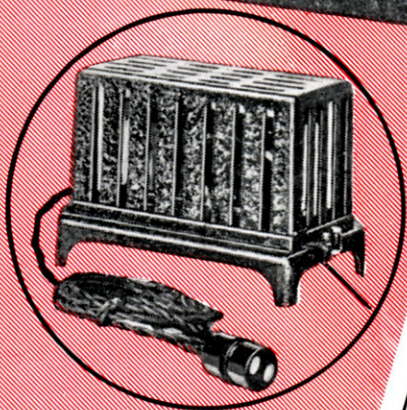

A REAL PRECISION BUILT PROJECTOR

This new "Bingoscope" C.4 gives all the atmosphere of the cinema—easy to run and maintain, it gives clear flickerless pictures and is fitted with best quality focussing lenses and shutter. Designed for both A.C. or D.C. mains, it is suitable for 100-110 or 200-250 volts, and is supplied with ample flex, adaptor and a reliable metal resistance. Specially designed long burning "Shadowless" lamp to give the utmost brilliancy. The newly constructed "gate" ensures easy winding and rewinding of the film, whilst efficient mechanism allows a smooth easy action. Designed to take the new Pathescope open type spools.
