**No. 12—TRAILER TRUCKS WITH BLOCKS**  
 "Well, I won't have to load the trailer with spoils," said Billy. "Blocks are more fun." A truck and 2 trailers which make a unit 24½ inches long. Twenty good-sized blocks embossed with letters of alphabet. Well made of selected wood. **89c**

"Well, here's one projector that really works," said Billy. "Yes, we can give a movie show every week with different pictures, too. Will you give a movie show to the girls in my club?" asked Ruth. The jector is equipped with a standard socket for a light bulb and the picture may be shown on any light surface, wall or sheet. 36 films to choose from.

 MOVIE JECTOR  
 AND FILMS**

**No. 13—ELECTRIC LIGHTED  
 STREET CAR**

"It really does something besides rattle along," shouted Billy. "The light goes on when you press the bulb," said Ruth. And all metal trolley equipped with a bright electric light. Automatic bell rings loudly as car is pulled along. Bulb and battery included. **89c**

**No. 11—MICKEY MOUSE  
 EASEL BLACKBOARD**

"Let's play school when we get this," said Ruth. "No, I want to learn how to draw Mickey Mouse," said Billy. 15 Mickey Mouse characters, numerals and alphabet on chart. Smooth, durable and washable slate preparation. Decorated in orange, red, white. **\$2.39**

**No. 16—WORLD  
 FIELD GLASSES**

"Dad says these were designed by the chief navigator of the first Byrd Antarctic Expedition," said Billy. High ground and polished lenses. High power. Includes suede strap for carrying over shoulders. "We'll have lots of fun at football games, scouting hikes and on auto rides," said Billy to Ruth. **98c**

**No. 14—  
 HEALTH  
 RIDER**

"Guess we're too big for this," agreed Billy and Ruth. Exercise is fun with this safe toy. All steel except seat, which is of finest selected hard wood. No corners, no sharp edges. Glides over floor like modern furniture. Does not mar. Supports child of from 20 to 40-pound weight. Cannot tip over. **96c**
