

INSTRUCTIONS FOR NIC PROJECTOR

- 1—Pull out rear cover and insert 15 watt bulb.
- 2—Take film out of box and remove the rubber band.
- 3—Put the film on the projector and insert the key. The film will show UPSIDE DOWN; this is correct.
- 4—Attach the hole on the cloth of the film to the hook on the opposite roller.
- 5—Attach any electric iron plug.
- 6—Put the handle on the projector—keep the projector about 5 feet from a light colored wall or screen and have the room dark. You are now ready to project.
- 7—To REWIND—Move the catch on left of the projector to the backward position and turn the key until the film is completely on the roll. Take out your film and you are now ready for your next film.

INSTRUCTIONS FOR "TALKIE" ATTACHMENT

- 1—Attach wheel X to the handle.
- 2—Put rods on casing A under the center plate of the machine so that the prongs B & C fit into opening Y & Z located on the front of the machine.
- 3—Put belt D around the pulley under the turn table and around wheel X on the handle so that belt D also moves around pulleys E & F.
- 4—Insert wire G which holds the reproducer and horn into the swivel hole on the right side of the machine.

TO SYNCHRONIZE

The diamond on each film must show in the upper most left hand corner of the screen. Place the needle at the arrow on the record. Turn the handle and the film and the record is synchronized.
