Price of Eagle and Girl Films :-
1/4d. in black-and-white, 1/11d. in colour.

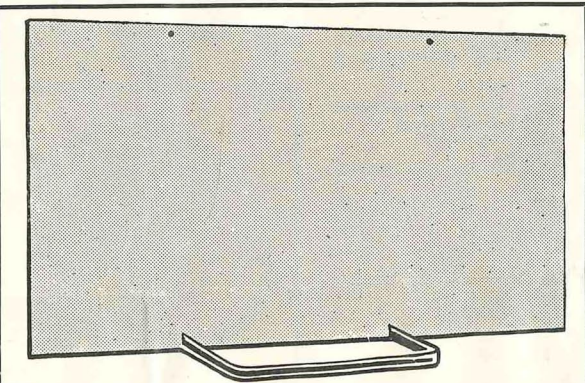

If you are unable to obtain our films locally, kindly write to us.
We shall be pleased to assist you.

The MINICINE SUPER TRANSFORMER (for A.C. only) in conjunction with a 6v. 6 watt lamp ensures a very bright picture as required for larger audiences. (Sunday Schools, Clubs, etc.)
The MiniCine Super Transformer is 23s. 0d., complete with two 6v. 6w. bulbs.

The MINICINE RESISTANCE ADAPTOR (for D.C. only) All resistances get hot in operation and children should not be allowed to operate projectors connected with resistances without constant adult supervision.
The MiniCine Resistance Adaptor is 23s. 0d.

The MINICINE SCREENS. Any white card or light coloured wall serves as a suitable screen for the above projectors and shows a satisfactorily bright picture. The MiniCine Screen however, is an inexpensive means of doubling the brilliance and compares favourably, in spite of its low price, with the most expensive silver screens available. It is made of practically unbreakable plastic material and combines outstanding performance with durability and lightness. The Screens are produced in two sizes (18in. x 12in. and 27in. x 18in.) and are made to stand or hang.
The MiniCine Screens are 13s. 6d. (size 18in. x 12in.) and 27s. 0d. (size 27in. x 18in.)

MARTIN LUCAS LTD., HOLLINWOOD, LANCs.

Catalogue 1953

The MINICINE PROJECTOR is an ingenious instrument for MOVIES and STILLs patented in 15 countries. It is 2 projectors in one and shows 5 minute MOVIES or 100 STILLs on 12ins. of film, thus replacing the expensive and troublesome 50 or 100ft. long film reels used hitherto. It is an all-metal precision instrument devised to give MANY YEARS service and is the declared favourite of parents as it is absolutely safe. Boys and girls like it because they can operate the projector by themselves, without help and with perfect confidence and success. Only a few seconds are required to insert the film and to get the projector ready for the film show. It works from the mains in connection with the MiniCine Transformer or MiniCine Resistance, and is operated simply by turning the handle for showing movies or by rotating the winding knob for showing still pictures. Large and bright pictures can be projected at any distance between 1 to 12 feet, the size being 18in. x 27in. at a distance of 2 yards. The delightful Enid Blyton juvenile films and the beautiful cartoons portraying all the well-known Walt Disney characters, besides many other comic and adventure films make up the wide range of entertainment provided by the MiniCine Animated Films. As to the MiniCine Still Films, the selection is so great that something is included for every boy and girl; Science, Sport, Nature, Legends, Classics, Bible Stories, presented on each film in 50 illustrations and 50 captions, plus an interesting introduction printed on the film container. The MiniCine Still Films are very amusing and at the same time of the highest educational and instructional value. More films are added every month. They are all prepared under the direction of well-known authors and leading experts.

The MiniCine Set is £5 5s. 0d., consisting of MiniCine Projector, MiniCine Transformer, 6 MiniCine Films, packed in de luxe presentation box.

* In black-and-white only.

- 302 Robinson Crusoe
- 303 Comus the Magician
- 304 John Gilpin
- 305 Punch and Judy

The DISNEYLAND MOVIE has been specially devised for the younger children and compares with the MiniCine Projector as far as performance, safety, simplicity and solidity of construction are concerned. It is a Movie and Still projector combined, which can be worked off a 6v. hand lamp battery, or if desired, from the mains by means of the MiniCine Transformer. It is smaller in size and less expensive than the MiniCine Projector. The Disneyland Movie can take all the MiniCine Animated and MiniCine Still films in the same way as the MiniCine Projector.

The Disneyland Movie Projector is £2 19s. 6d. without battery and films.

The EAGLE PROJECTOR is the ideal projector for still pictures and unrivalled for handiness, simplicity, efficiency and safety. It is built to stand up to endless use because none of the parts except the bulb will ever need replacing. The projector is absolutely safe, as it only needs 6 volts to work it, either from a 6v. hand lamp battery, or off the house mains by means of the MiniCine Transformer. It is so simple to operate that any youngster can get the instrument ready for projection in a few seconds and give, quite unaided, a complete film show, just by turning 2 control knobs. Clear and bright pictures can be shown at any distance between 1 to 12 feet. The size of the picture is 14in. x 14in. at a distance of 1 yard. There are hundreds of films to choose from as listed under the headings "MiniCine Still Films," "Eagle and Girl Adventure Films," and "T/V. Comic Films," and more films are being issued every month.

Continuation of MiniCine Still films

The Eagle Projector (Continuation)

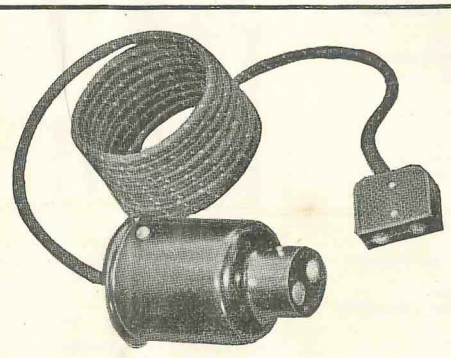

All the Eagle, Girl and T/V. Comic films are prepared based on the illustrations and stories as appearing in EAGLE, GIRL and T/V. COMIC, the very high standard of which is well-known to millions of youngsters. The Eagle Projector is a most valuable instrument thanks to its vast entertaining and instructional value, and no youngster should be without it.

The Eagle Set is £3 3s. 0d., consisting of Eagle Projector, MiniCine Transformer, 2 Eagle Films, packed in de luxe presentation box.

The EAGLE EYE VIEWER of practically unbreakable construction, is the ideal instrument for viewing COMFORTABLY hundreds of films costing from as little as 6d. up to 3s. 6d., as listed under the headings "Lilliput Films," "MiniCine Still Films," "Eagle and Girl Adventure Films," and "T/V. Comic Films." It gives very high magnification and shows unusually bright and distortion-free pictures. It will also serve as a miniature microscope to enlarge stamps and all sorts of minute parts of insects and plants. The owners of an Eagle Eye Viewer will thoroughly enjoy every film and have lots of fun, at the same time, quite unawares, receiving a great deal of instruction. This versatile instrument is the world's finest viewer, with the world's greatest film selection at its command. It is a must for every boy and girl.

The Eagle Eye Viewer is 3s. 6d.

The MINICINE TRANSFORMER ADAPTOR (for A.C. only) is absolutely safe and foolproof. It does not produce any noticeable heat and is designed to fit into any standard lampholder in the same way as an ordinary household lamp. The person operating the projector is only in proximity to a length of flex carrying an absolutely harmless current of 6 volts.

The MiniCine Standard Transformer is 18s. 0d.
