**THE** Johnson-Disney Film Strip Projector is a real little projector that produces crisp and clear coloured pictures up to 2 feet square from genuine Walt Disney illustrations taken from the famous cartoon films. It is worked by an ordinary pocket lamp battery. There is therefore no danger—any child can use it. A properly designed optical system with condenser ensures astonishingly clear and sharp results. The Projector is finished in Silver-Grey polychrome enamel and is complete with bulb, battery and Film Strips each of 24 pictures. The whole is packed in an attractive Carton designed by the Disney Studios and printed in 6 colours.

# PROJECTORS and STRIPS.
