

INSTRUCTIONS

FITTING BATTERY AND BULB

Pull out slides from base and back.

Assemble bulb holder on battery by inserting long lead into slot provided and bending short lead into screw hole. Secure by screwing bulb into position (see illustration).

Slide battery into set, allowing long lead to rest on lighting cam.

HOW TO WORK YOUR SET

Switch on light. The handle supplied is used for both switch and film winding.

Hand-feed selected film into slot and wind in clockwise direction.

One turn of handle alters complete picture.

Your dealer will gladly supply spare films.
