

CASE OF STEREO-PICTURES

Instructions for use:

1. Take stereo-pictures out of case.
2. Always place only **one** stereo-picture, perfectly straight, in ledge on inside of lid.
3. To look at picture hold lid with **left** hand, lenses (front part of case) with **right** hand, and hold them before eyes like **spectacles**.
4. Look through lenses quietly with both eyes in such a way that the light falls full from the side on the unshaded picture. The two separate pictures must appear as **one** single **plastic** picture. If this is not immediately attained the lid may be slightly inclined forwards or backwards to bring picture into focus. People wearing spectacles, retain them.
