

## IMPORTANT DIRECTIONS

Please Read Carefully

1. Hold viewer in Right Hand with Lever down. With left hand, insert in slot, end of film marked START. Push film about half way into slot, or until you engage it as you pull the lever.
2. HOLD TRU-VUE like this:  
(Note correct position of Thumb and Index finger as illustrated).
3. Face toward window or strong light. Hold viewer close to your eyes, read title and with finger-tip pull lever quickly all the way toward thumb. Release and repeat movement.

(OVER)

4. There are two pictures of each view—one which you see through the left lens and the other through the right lens—and while it may seem that you are skipping two pictures, the film is merely moving into proper position for the next view.
5. Always re-roll each film after viewing so as to have starting end on outside of film roll.
6. Should your viewer ever fail to operate mechanically, return to us **WITHOUT OPENING OR TAMPERING WITH IT** and we will make the necessary adjustments or repairs.

As you travel—

Buy **TRU-VUE FILMS** of the places you visit. You will soon have a library compiled which will always be a source of extreme pleasure to you and your friends.

Please mail the attached Business Reply Card for complete list of film subjects and Lifetime Guarantee.
