

MOVIE FILMS FOR THE PEAK MARK II 16MM HOME CINEMA

2ft.

APPROX.

BLACK & WHITE

1/3 each retail

HOW TO USE

Put "EVER READY" No. 800 TWIN BATTERY in clips in base or if run from Mains, connect Transformer Leads to socket provided. Switch on - slip film-Loop in gate and you are ready to show. For "still" projection leave handle in correct frame position, (the film will not burn). The Peak Mark II projector is TWO projectors in one, MOVIE and "STILL" and is COMPLETELY SAFE.

FILMS To make a continuous film-loop join the two ends with SELLOTAPE leaving PERFORATED SPROCKET holes free. To make longer film-loops join end to end — any of the Film titles — in the same way. YOU'LL LOVE THESE FILMS.

ALL 16mm FILMS ARE NON-INFLAMMABLE

Films supplied from this list are joined and boxed.
